

STAND001

Height adjustable VESA 100 pivot stand for LCD's

PGE's height adjustable stand brings degrees of movement and freedom to any monitor with VESA 100 wallmount capability. Allowing the user to have height adjustment of upto 120mm range, the facility to swivel, pivot and tilt the screen, there is a position of viewing suitable for any purpose required. Using either rotation software or the features within modern day discrete VGA drivers, your screen's display can be rotated through 90° with the use of this stand to effect a true portrait display excellent for word processing or pre-press design.
